

Playground

Building language through
play and fun

Use action words

Such as climb, slide,
jump, swing.

- The playground is a great place for your child to explore, move, and learn new words through real experiences.
- Talking while your child plays helps them learn how to describe what they see, do, and feel as well as how to take turns, share ideas, and understand others.

Use describing words

Like soft, bumpy, wobbly,
fast, slow.

Play pretend games

Pretend the slide is a mountain
or the tunnel is a cave.

Use repetition and routines

Repeat phrases like "up you
go," "one two whee..!"
